OBJECTIVE

To use my skills and knowledge, providing excellent nursing services, in order to heal the human body, mind, and soul.

WORK EXPERIENCE

UAB Hospital: Birmingham, Alabama

Registered Nurse; Pulmonary/ Pulmonary Intermediate Care/ Adult Cystic Fibrosis;

June 2015 - April 2017; November 2020 - current

- Provided inpatient care on a pulmonary medical-surgical floor, caring for patients with a variety of pulmonary disorders. Also worked with the gamut of other illnesses from off-service patients.
- Pulmonary IMCU experience, including weaning patients from the ventilator.

Mary Washington Home Health: Fredericksburg, Virginia

Case Manager; June 2018 - October 2019

- Managed the nursing care for patients at home in Fredericksburg and King George County.
- Provided nursing services including but not limited to: wound care (including wound vac), central line care, disease process and medication teaching for patients post heart surgery or post hospitalization for COPD, CHF, cancer, joint replacement, etc.
- Interdisciplinary communication and delegation to manage a patient's full home health service experience.

Mary Washington Hospital: Fredericksburg, Virginia

Registered Nurse; Surgical Intermediate Care; April 2017 - May 2018

- Providing inpatient care for patients that are post-op for open heart surgery, thoracic surgery, and other surgeries or procedures; working with patients experiencing a wide variety of medical conditions.
- Gathering extensive health information from patient admissions and teaching detailed patient education before discharge.
- Receiving MSET patients from other floors to provide a more closely monitored level of care.

- Some experience in the medical and surgical intensive care units.

Auburn University: Auburn, Alabama

Undergraduate Teaching Assistant; Spring 2013

- Regularly presented on topics from the organismal biology lab curriculum.
- Aided in maintaining a rich learning environment by testing each student's knowledge and answering their questions.

Dixie Green, Inc.: Centre, Alabama

Greenhouse worker/ Crew leader; 1998 - 2013

- Regulated temperature and water levels for many ornamental plant varieties.
- Led groups of people in packaging and shipping plants that were ready to be sold.
- Mixed and administered pesticides to maintain a healthy growing environment.
